Mat,

I hadn't had a good opportunity to review this before our call yesterday, so I realize my review is a bit late. I do very much appreciate the scoping and approach you have laid out. I also do believe I should be involved. In particular would be happy to help with communications with the state and any other parties where this is seen as added-value.

Subject: LUB Petition

Tony,

I'm leading up an effort to take an intentional and focused approach to reviewing the petition dated January 16, 2020 regarding the Lower Umatilla Basin. Attached is the latest draft. I'm interested in your feedback (especially on the clarity of scoping and approach), your questions and any thoughts. In particular, if you think you should be included, I'm happy to add you, but my thinking was that a team could take care of the initial evaluation, and that you might get involved if we moved to Phase II (an actual oversight inquiry with the Oregon OHA, DEQ, and possibly ODA).

Happy to chat about this.

Thanks,
Mat
